Craig

**DIVISION OF SPORT FISH**

# HIRING WE ARE

The Alaska Department of Fish and Game is seeking applicants for its Marine Sport Harvest Survey (Creel) Program. This crew will interview sport anglers and sample their catch as they return to harbors and boat launches. The information collected is used to estimate the effort and harvest of sport-caught species and provide valuable information to guide the management of Southeast Alaska fisheries.

While understanding the Southeast Alaska sport fishery is helpful, experience is optional, and training will be provided. If you enjoy working outside, engaging with the public, and are interested in Alaska's fishery resources, we look forward to your application. This is an excellent opportunity to gain experience and begin an exciting career with the Alaska Department of Fish & Game.

## **The key responsibilities of this position include, but are not limited to:**

- ✓ Interviewing sport anglers about their catch, harvest, and effort as they return to harbors and boat launches.
- ✓ Following detailed protocols to collect biological samples, such as lengths, sex, scales, and otoliths, from salmon and groundfish.
- ✓ Positive interactions with the angling public in a polite, courteous, and professional manner.

## **Minimum Requirements**

- High School diploma or equivalent
- A valid driver's license
- Legal ability to work in the United States

**Apply to this position through Workplace Alaska or submit a resume detailing prior work history and education to:**
